Malabou concludes that Hegel The Future of Hegel: Plasticity humanity, divinity, the cosmos, and philosophy as thoroughly plastic, receptive to being transformed and capable of initiating transformations. Part III argues that Hegel's systematic philosophy is itself plastic, capable of being transformed by those who read it, and capable of transforming those same readers. Malabou's strategy is to demonstrate the significance of the concept of 'plasticity' -- "a capacity to receive form and a capacity to produce form" 9 -- at key moments in Hegel's system, and thereby to demonstrate that his philosophy is significantly more flexible, and genuinely open to the future, than Heidegger and his intellectual descendants will allow.

Published herein English for the first time, it includes a substantial preface. Published here in English for the first time, it includes a substantial preface by Jacques Derrida in which he explores the themes and conclusions of Malabou's book. Paperback pages. Part I consists of four chapters, which together strive to demonstrate that it was amazing Feb 22, Published August 26th by Routledge first published January 1st
