There ought to be another alternative to the end of the series without costing you any good will at Penguin or coming at a financial hardship to you. Ray is back in sunny southern California because members of the car-heist gang he used to belong to have acquired some magic and they say Ray is killing. I have no idea why I never heard about it before despite all of the marketing that you mention .
Again, as a fan, the thought of not reading more in the series any time soon depresses me.
Hey, my son has read and liked your Dragonbreath books! Like or dislike of him, I feel that I understand him somewhat, and was looking forward to getting to know him better. It has been pretty great so far, except for the gigantic commercial failure .
Hopefully you will decide to return to the series at some point, but I can see why that is true, I liked the mysterious aspects of the background, as opposed to having everything dumped in your lap a third of the way into the first book. Will be looking out for your writing in other forms – you made me a fan!
