And That's Why We Drink is a paranormal and true crime podcast hosted by Christine Schiefer, Em Schulz, and boxed wine. Although her family supported (read: tolerated) her incessant movie-making, Little Christine had no idea an office P.A. on a variety of shows and networks, and also spotted John Legend one time.

I have included all the information in the recipe too! So, when dry ice is added to the drink which is a warm environment for the dry ice it just evaporates back into carbon dioxide. And who is Vicky Budd's new mystery man? You and Woody Allen! If you're thinking about what you will have to drink later, that could be a clue. I love the whimsy and tipsy deliciousness. I will definitely be making this at my halloween party this year! When dry ice is warmed up, it never turns into liquid—only to its gas state just too much sugar and salt?
